

## Creating Global Community Founded In Unconditional Love

To Whom It May Concern;

I have had the honor and pleasure of working with Brian Enriquez for the last 2 and a half years in his capacities as both website developer and poet extraordinaire. A can say with no doubt whatsoever, Brian is excellent at what he does.

I highly recommend Mr. Enriquez to anyone seeking a partner and contributor of great intelligence, dedication, heart, responsibility and capability.

Brian's creativity is exemplary. He has the extraordinary capacity to bring words to life via images and feeling tones. I would fumble with words attempting to explain an idea or concept for our community's website and Brian would turn that rambling into cyber poetry. Mr. Enriquez is a man of willingness and character. He has exhibited dedication, follow through and creative insight. I can say without hesitation his skills and capacities have made the Genesis community more viable, inviting and inspiring.

Brian Enriquez consistently demonstrates those rare qualities of a 'star' performer and the drive that is the hallmark of a top leader. Anyone who sincerely desires to have their business endeavor catapulted in the direction of betterment will hire Brian Enriquez immediately.

Please do not hesitate to contact me directly with any further questions.

Peace,
